Terms & Conditions Of Sale

VAT: All quoted prices EXCLUDE VAT which will be added at rate ruling at date of invoice.

Payment: Strictly, nett 30 days from invoice date approved open credit account only. Deposit with order required on some equipment. Details on application.

Prices: Every effort will be made to keep prices firm, but we reserve the right to vary them without notice.

Dimensions: All dimensions stated are offered as a guide only and should be treated as 'nominal'.

Credit Surcharge: Sums, which are overdue and have not been paid by the end of the month of the invoice, will be surcharged at the rate of 1.5% [compound] per calendar month or part of calendar month thereafter.

Title: Title to the goods does not pass to the purchaser until the account is settled in full. Risk passes to the purchaser on delivery.

Quality: We use the most suitable materials for the intended purpose of the article. It is not our policy to vary quality but we reserve the right to use alternative material when we consider it suitable or necessary.

Packing: Free, except any wood cases or specially requested materials, which are charged at cost.

Non-Delivery/Damage: If goods are not received within 10 days from date of invoice we must be notified immediately in writing otherwise no responsibility can be accepted. Damage or Part Delivery must be advised within 3 days of receipt.

Returns: No goods can be accepted for credit without written permission from the Company. A 25% handling and re-stocking charge will be applied to all credit notes covering returned goods, plus carriage where applicable. Returns will only be accepted on goods received back in saleable condition. This condition does not apply where there is a justifiable complaint relating to the quality of the goods supplied.

Above are extracts from the Conditions of Sales of the company
Full conditions of sale are available on request.

Welcome to our 2013/14 Football Catalogue...

I am Adam Stordy, the new Sports Sales Manager for Huck Nets. I have worked within the department for the last two years and am very excited to be taking over responsibility for all sport sales and assisting you prepare for the new football season. We have once again brought together the highest quality selection of football goal posts, netting and ground equipment to get your season off to a great start, a good example is the 9V9 elliptical football posts on page 11.

The boldness and durability of our goal nets is well recognised. Our cleverly designed knotless nets are made of polypropylene which is UV stabilised and rot proof. They are available in single and multiple colour options to fit all styles of goal posts and match most team colours.

We are proud to supply our football nets, posts and ground equipment to clubs of all levels including the Barclays Premiership, the Championship, 1st & 2nd Division, Blue Square Bet Conference National league as well as many non-league sides and schools across the country.

All of the products within this catalogue (alongside regular special offers) can be browsed and purchased from our e-shop online at www.huck-net.co.uk. Alternatively, you can contact me and my team by phone on 01308 425100 or email sports@hucknetting.co.uk

As a company we are always looking for new and exciting additions to our product range so if you cannot find what you are looking for please contact me.

I look forward to helping you prepare for the new season and hope it is a successful one for you.
Best regards

Adam Stordy

Haspo - We Make The Goal!

Steffan Lawes, the founder's son, joined the company in 1997, he became the company's sole Managing Partner in January 2009.

Haspo Sportgeräte was founded by Günter Lawes and his partner on 1 January 1976 first working in a production space of 600m², producing 20 different items of sports equipment. The company decided to erect its own production plant when space became scarce. In the Spring of 1979, a 5000m² plot of land was acquired in Johannisweg in the village of Rhüden. The production plant covering 2500m² was completed in June 1980. Since then the company has continued to grow and expand. It now has a production area of more than 6000m² and premises covering more than 20000m².

Haspo Sportgeräte is now the largest manufacturer of aluminium sports equipment in Europe. The Haspo name is well regarded in the sports world being recognised for delivering quality and reliability.

All goal posts manufactured bear the TÜV mark of certification which means they have been safety tested by the German technical inspection authority TÜV. The production plant is also monitored regularly by the TÜV, which means even more safety for you and your customers.

Huck Nets & Haspo Sportgeräte have a long term working relationship having worked together across Europe for many years.

Prices exclude carriage and VAT
All major credit cards accepted

Huck's Football Foundation Goals

The Football Foundation is the UK's largest sports' charity. Funded by the Premier League, The Football Association and the Government, the Foundation directs £30m every year into grassroots sport. The Foundation receives money from the very top of the professional game and also from the Department for Culture, Media and Sport through Sport England. It then uses this money to leverage even more partnership funding, to deliver a programme of new and improved community sports facilities in towns and cities across the country.

Their mission is to improve facilities, create opportunities and build communities throughout England.

There are funds available to help with the purchase of Youth Goals and Huck is very pleased to be part of the scheme.

The scheme is open for applications from 1 July 2013 to 31 August 2013.

There are a number of leagues and clubs that have moved to the revised formats of youth football this season and The FA and Football Foundation have supported those clubs and leagues wanting to be proactive in moving to deliver 9 v 9 earlier than required by offering funding towards the purchase of goals. The Foundation will continue to support the clubs that will now require funding to purchase goals for the 2013/14 season.

In addition to 9 v 9, the latest goalposts windows have been extended to cover the purchase of mini-soccer goals for 5 v 5 and 7 v 7 games.

Similar to the first window they are offering grants at 50% towards the cost of British Standard 16' x 7' and 12' x 6' goalposts, including delivery and VAT (if applicable).

Visit <http://www.footballfoundation.org.uk/apply/youth-football-goalposts/> for application form and more details

Kickster Academy

Kickster is truly portable and is quick and simple to put up. A Kickster goal is ready for training in just 2 minutes, with no instructions needed, as all of the poles are connected with elastic, just like a tent!

Kickster is lightweight and strong at only 1/2 the weight of other goals on the market. Its steel and fibre glass construction will take everything you throw at it, whilst still fitting into a small, easy to carry bag.

You Couldn't Score...
in a Better Net!

Manufacturers of Knotless Goal Netting

Our goal nets are manufactured in a knotless construction from high tenacity polypropylene which gives the following advantages:

- Hard wearing net meshes have a great resistance to wear and high shock absorption capacity
- Easy to install due to lighter weight
- Aesthetically pleasing
- The netting is of interlocking design and cannot be displaced so is of a precise mesh size.
- Very little abrasion and extremely chafe-resistant
- Meet the latest UK & European quality standards

Nets available for all sizes and styles of goal posts: Styles: Continental, International, Box, Straight back

Standard Dimensions

Senior: 7.32m x 2.44m (24ft x 8ft)

Youth: 6.40m x 2.13m (21ft x 7ft)

9v9: 4.88m x 2.13m (16ft x 7ft)

Mini: 3.66m x 1.83m (12ft x 6ft)

5-A-Side Senior: 4.88m x 1.22m (16ft x 4ft)

5-A-Side Youth: 3.66m x 1.22m (12ft x 4ft)

Netting can be manufactured to fit all unusual shapes and sizes too! Please call 01308 425 100 to discuss

Full Specialist Installation Service Available

Huck Tek can provide the whole system designed and installed to suit the variations of your particular site. Permanent or temporary (retractable) installations are all possibilities.

Specialist Indoor & Outdoor Netting Systems & Installation

A key service provided by Huck Nets is the manufacture, supply and installation of indoor and outdoor net facilities

Whilst our speciality is football, we also provide facilities and equipment for cricket, basketball, netball, hockey and golf amongst others, enabling multi-sports projects to be completed under one contract. By handling projects of all types and sizes we have gained a high level of practical knowledge and skills.

Our specialist installation technicians from Huck Tek will survey, design, cost and manage the complete project for you. We recognise the every installation is different, that is why every installation is tailored to meet your specific requirements. Whether it is a new installation or refurbishment of an existing netting system we can provide you with everything you need for the project.

With over 30 years of successful installations behind us you can be assured that your project will be in safe hands.

Contact Rick Foster at Huck Tek for more information:

Every installation is different

That is why every installation is tailored to meet your specific requirements.

A guideline price can be given from your estimates and dimensions but a site inspection, which is offered free of charge, is key to doing the job properly and to costing it correctly. We will look objectively at your installation plans and provide unbiased advice regarding siting, suitability and dimensions, matting, flooring and lighting if required. With special measuring instruments we will determine precise dimensions from which drawings can be produced. Particular care is taken with regard to the variance of floor levels to ensure materials are cut, trimmed and finished to perfection. Site photographs are also used as key references during the preparation of installation plans.

Testimonial from @Futsal

@Futsal Limited are in the process of rolling-out a number of arenas across the UK to enable people to play Futsal in a modern environment that will provide an innovative lifestyle and playing experience. The arenas incorporate a number of modern and high-tech features to enable a unique experience. Working closely with the national Football Association and regional Football Associations, the arenas provide local and national leagues for adult and junior players, both male and female.

To date, @Futsal Ltd has opened four @Futsal 5-a-side indoor football arenas – Birmingham, Cardiff, Leeds and Swindon. Leeds is the most recently opened and consists - 8 standard @Futsal pitches, 2 FIFA international @Futsal pitches and 4 FIFA regulation championship Pitches. More arenas are planned for 2013.

What is Futsal?

Futsal is the only officially recognised form of indoor football accepted by FIFA, the world governing body for football. It is reported to be the world's fastest growing indoor sport with over 30 million players worldwide. Players such as Messi, Ronaldo, Ronaldinho and many others have developed their abilities playing Futsal from a young age. The Football Association has recently adopted Futsal and it is now seen as a cornerstone of The FA's strategic development plans.

Futsal is played between two teams of five players, one of who is a goalkeeper. In addition each team may have up to 7 substitutes, which means each team can comprise a maximum of 12 players. Unlike some other forms of indoor football, the playing arena boundaries are marked with lines, and not walls or boards that players can use to rebound the ball. Futsal is played with a smaller regulation ball with 30% less bounce than normal. The ball can also be kicked above head height, so goals are similar in size to hockey goals. Corners can be taken and throw-ins are replaced by kick-ins from touch lines, both of which must be taken within 4 seconds. This makes the game very fast, dynamic and exciting. As a small-sided game, players are constantly placed in situations where they must receive or play whilst under pressure or in confined spaces and it places considerable demand on technique, movement, tactical awareness and fitness. It is also very exciting and a huge amount of fun!

Huck Nets manufacture, supply and install the specialist indoor netting for @Futsal, this includes not only the provision of floor to ceiling netting but also the tracking, the tension wire systems, etc.

Said Lee Baker, National Infrastructure Manager, @Futsal

"When embarking on an ambitious project such as this it is important to find suppliers who are experts in their fields and who can be trusted to deliver what is needed - when needed. Huck Nets are responsible for kitting out our arenas with the specialist indoor netting, a crucial part of each Arena as it is netting that divides the pitches and also protects the spectators... Huck also provide us with football goal nets. The advice, support and service given by Huck Nets is excellent"

Our aim is to provide a value for money service which ensures total customer satisfaction and provides an installation of which both the customer and Huck Nets can be justifiably proud. We work to high specifications, utilising the most modern materials fitted by experts, and provide professional, highly experienced advice throughout and after installation.

and small teams.**

Did you know?

The first football goal nets, invented by John Brodie from Liverpool in 1889, were made in Bridport, the Home of Rope and Netmaking since the 13th Century. Football nets made in Bridport at Huck Nets are still adorning goal posts in the Barclays Premiership, NPower Championship, Blue Square Bet Conference League as well as many non-league sides and schools across the country.
