New Projects:

Wind reducing nets for the Football World Cup in Qatar

Indoor Safety Protection Nets (see page 6.7)

Fastening of roof and side safety nets (photo: street kicker base)

20 years of HUCK U.K.

... means 20 years of entrepreneurial spirit and HUCK's focus on quality

... means 20 years of development in net technology

... means a good many professional careers.

Dear Sports Fans,

Unfortunately many athletes and sports enthusiasts are unable to take part in their sport. Despite numerous cancelled events, many hope to be back very soon either playing sport or attending sporting events as a spectator.

One such event could be the Football World Cup in Qatar, for which, in addition to safety nets we also supplied wind reduction nets during the construction of the stadiums. Mounted on the stadium roof these nets are intended to reduce the hot desert winds, and improve the climatic conditions in the stadium. The final assembly was carried out by our Dutch partner Huck-Torimex.

Edwards Tennis Nets, likewise distributed under the Huck company umbrella, will again be used in Wimbledon in 2021.

DRALO coated anti vandalism nets are now available for use as sports protection nets.

Many consider sport as the most beautiful thing in the world and we hope that we will be able to do all of our sport again soon.

With kind regards

Huck Nets (UK) Ltd.

Knotless stop nets and practice pitch goal nets with “Mahulan steel” wire-strand core, reinforced Polypropylene volleyball nets, Dralo® volleyball nets, reinforced practice pitch goal nets, Dralo® practice pitch goal nets, nets for playgrounds in residential areas, ball stop modular fencing system, reinforced Dralo® stop nets, technical information on Dralo® nets, Anti-Vandalism net from PA-plastic coated steel cable 1.8/2.5 mm

No. 1991-06

"Ultra" Goal Nets in braided knotless netting technology, approx. 4.5 mm diameter

NEW

Nets in braided knotless technology combine the advantages of knotless netting in Raschel technique (less abrasion in the mesh intersection due to the absence of the knot, same breaking strength in twine and intersection) with the advantages of knotted nets (high linear tensile strength).

Just like the traditional knitted knotless nets in Raschel technology nets in braided knotless technology have a nice design and a continuously precise mesh size. That special netting technology provides an optimal force impact thus lengthening the lifespan of the net.

Furthermore the nets have a

- low abrasion in the mesh intersection

- a continuously precise mesh size

- a low elongation due to special textile technology.

Dimensions: width 7.50 m, height 2.50 m, top and bottom depth 2 m.

No. 1993 **Football goal net, approx. 4.5 mm polyethelene in new braided knotless netting technology.** Mesh size: 10 cm, square mesh design.

Colour: ● £ 396.60 / each
(additional safety tensioning lines on request)

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 2 m.

No. 1991 **Football goal net, approx. 4.5 mm polyethelene in new braided knotless netting technology.** Mesh size: 10 cm, square mesh design.

Colour: ● £ 337.80 / each
(additional safety tensioning lines on request)

Our football goal nets have the maximum mesh width of 120 mm required by DIN EN 748.

No. 1595-06

"Ultra" Junior Football Goal Nets in braided knotless netting technology, approx. 4.5 mm diameter

NEW

Dimensions: width 5.15 m, height 2.05 m, top and bottom depth 1 m.

No. 1599 **Junior football goal net, approx. 4.5 mm polyethelene in new braided knotless netting technology.**

Mesh size: 10 cm, square mesh design.

Colour: ● £ 205.00 / each
(additional safety tensioning lines on request)

Dimensions: width 5.15 m, height 2.05 m, top depth 1.00 m, bottom depth 1.50 m.

No. 1595 **Junior football goal net, same design as for previous item.**

Colour: ● £ 221.00 / each
(additional safety tensioning lines available on request)

No. 1023-02

Football Goal Nets with hexagonal mesh

HUCK football goal nets with hexagonal mesh were used during the 2006 world football championship in Germany. As a result of such nets in this special design being well received we now offer an extended range of hexagonal mesh goal nets that includes different depths.

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 2 m.

No. 1021 **Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh.**
 Colour: ● ○ £ 173.10 / pair

Dimensions: width 7.50 m, height 2.50 m, top and bottom depth 2 m.

No. 1023 **Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh.**
 Colour: ○ ● £ 273.10 / pair

Football Goal Nets with chequered pattern

Thanks to a new manufacturing technique we can offer knotless nets with hexagonal mesh and **chequered pattern**.

European patent no. 22 85 456.

These nets with chequered pattern can be offered in the following sizes and colour combinations.

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 2 m.

No. 1011 **Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh (chequered pattern).**
 Colour: ● ○ ● ○ £ 188.20 / pair

No. 1013-27

Dimensions: width 7.50 m, height 2.50 m, top and bottom depth 2 m.

Football Goal Net optimised for cameras with a different colour design on each side

The "Fans" football goal net is great for cameras. The white side towards the pitch provides a clear outline for players, while the black side towards the stands gives spectators and cameras a great view. **Utility model patent application DE 20 2014 101 841 U1**

Dimensions: 7.50 m wide, 2.50 m high, 200 cm deep top and bottom.

- No. 10133** **Knotless goal net „Fans“ in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh, black outside, white inside.**
 Colour 26: white/black £ 293.30 / pair
Other colour combinations available upon request!

Our football goal nets have the maximum mesh width of 120 mm required by DIN EN 748.

Under the latest issue of DIN EN 748 the EN models are no longer restricted to square meshes, such that DIN EN 748 also covers hexagonal meshes.

Football Goal Nets – Huck Eco-Nets

HUCK now has textile nets for sports uses, helping to protect the environment.

The nets are made from **PLA** (polylactic acid). PLA is **biodegradable** under environmental conditions that can generally only be found in industrial compost works.

This means that consumers can use an alternative method of disposal.

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 1.50 m.

- No. 1033** **Knotless goal net in approx. 4 mm PLA (polylactic acid).**

New trend in sport: Futsal

Futsal is played indoors with a slightly smaller ball than regular indoor football. The goals size is the same as handball so we can manufacture a range of nets for either sport

Handball goals are used as goals and we can offer the following net dimensions and qualities.

Dimensions: width 3.10 m, height 2.10 m, top depth 80 cm, bottom depth 100 cm.

No. 108 **Knotless** goal net in approx. **3.5 mm high tenacity polypropylene**. With hexagonal mesh and **elastic cords**, to protect external mesh row, **chequered pattern (European patent no. 22 85 456)**.
Colour:    £ 100.00 / pair

No. 114 **Knotless** goal net in approx. **4 mm high tenacity polypropylene**.
Colour:  
Colour:  £ 71.40 / pair
£ 75.20 / pair

Reduction for Junior Football Goal Nets

NEW

In the future, the goals for junior football and for children's football up to 10 years old are to be reduced in size so that the game can be adapted to their smaller stature (**for football goals 5.15 m wide, 2.05 m high**).

No. 167

NEW

Reduction for goal nets made from webbing net diameter 25 mm, mesh size 200 x 100 mm.

Dimension: 5 m x approx. 0.33 m, at the top and sides with belt snap buckles for fastening to the crossbar and goal posts.

Colour:  £ 175.60 / each

Reduction for Junior Goal Nets, No. 167-03 (orange)

"Exclusive" Indoor Handball Goal Nets

In addition to the tension cord at the top, these nets have a tension cord at the bottom to prevent the ball from slipping between the goal frame and the net. The tension cord at the top is fitted with a quick-release fastener.

The section of the net that is hung on the goal frame is fitted **with an additional cord in order to protect the outer rows of mesh.**

Please use the cord and not the net edge to attach the net to the goal frame. This will lengthen the life of the net considerably!

In regulation dimensions: width 3.10 m, height 2.10 m, top depth 0.80 m, bottom depth 1 m. Mesh size 10 cm.

Volleyball Tournament Nets that conform to international and DVV I standards

These nets are used for international matches as well as for all competition matches, particularly in the higher categories, from the Landesliga (German State League) and above. They all share the following features:

- **6-point suspension** with 3 quick-release fasteners at each end and fibreglass-reinforced polyester rods sewn into the sides
- **70 mm wide, white headband** with 11.70 m Kevlar cable
- continuous **50 mm wide, white band** along the bottom as well as **inner tensioning rope**.

9.50 m long, 6-point suspension, fibreglass-reinforced polyester rods sewn into the sides at each end and Kevlar cable (11.70 m long) above with a 70 mm headband and a continuous 50 mm band along the bottom.

No. 5088 **Knotless volleyball tournament net in approx. 3 mm high tenacity polypropylene, mesh size: 100 mm.**
Colour: ● £ 152.90 / each

No. 5055 **Knotless volleyball tournament net in approx. 2.3 mm high tenacity polypropylene, mesh size 45 mm.**
Colour: ● £ 161.30 / each

No. 5077 **Knotless volleyball tournament net in approx. 4 mm high tenacity polypropylene, mesh size: 100 mm.**
Colour: ● £ 160.50 / each

No. 5056 **Knotless volleyball tournament net in approx. 2 mm polyethylene, mesh size 45 mm, in twisted knotless netting technology, resulting in optimal tensioning (very little slack).**
Colour: ● £ 182.40 / each

All volleyball nets are fitted with a plastic disc at both ends of the net, to prevent the steel or Kevlar cable from accidentally slipping back into the tape.

Our tournament nets (without printing) have a **woven, extremely heavy-duty** headband. The nets are 9.50 m long and 1 m high, and conform to DIN EN 1271, **Net class A (issued January 2015)** requirements.

We cannot issue quotes for nets with printed edges (on PVC bands) until we have camera-ready artwork.

Depending on the size of the order, there may be a substantial surcharge for this service and delivery is likely to be 3-4 weeks after approval of the print format.

No. 5055-06

Please note: If Kevlar cables in other lengths are needed, please state this when ordering!

No. 5099: Volleyball Tournament DVV I competition nets. The pulley on each side of the net ensures a perfectly even tension over the entire area of the net.

Volleyball Tournament Nets that conform to DVV I standards (with tension pulley)

9.50 m long, **6-point suspension**, fibreglass-reinforced polyester rods sewn into the sides at each end and Kevlar cable (11.70 m long) with tension pulley above.
70 mm wide headband and continuous 50 mm wide band along the bottom.

No. 5099 This design development **patented by Huck (patent no. P 43 24 767.9-09)** also features a tension pulley at both ends of the Kevlar cable. This system guarantees an even tension across the net. It is also possible to adjust the position of the net to fit the court markings once it has been tensioned.

“Smash” **knotless** volleyball tournament net in approx. **4 mm high tenacity polypropylene** with Kevlar tension cord (11.70 m long), fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords with quick-release fastener as well as a **tension pulley** at each end.

Colour: ● £ 172.30 / each

Volleyball Tournament Nets that conform to international and DVV II standards

9.50 m long, **4-point suspension**, fibreglass-reinforced polyester rods sewn into the sides at each end and steel or Kevlar cable (11.70 m long) with a **70 mm headband** and continuous **50 mm band** along the bottom.

No. 5033 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **steel cable** (approx. 4 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick-release fastener.

Colour: ● £ 103.80 / each

No. 5034 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (approx. 5 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick-release fastener.

Colour: ● £ 113.50 / each

No. 5034-06

Please note: If Kevlar or steel cables in other lengths are needed, please state this when ordering!

No. 5166: The bottom of the net is reinforced beyond the playing area so that the antenna pockets can be secured properly.
DVV-Approved for items 5133-06, 5134-06 and 5166-06.

DVV-Approved Volleyball Tournament Nets

In contrast to DVV I and DVV II, DVV nets have a 50 mm wide headband and, at the bottom, a band for securing the antennae only at the sides. They can still be used as tournament nets in the lower divisions.

9.50 m long, 4-point suspension, fibreglass-reinforced polyester rods sewn into the sides at each end and steel or Kevlar cable (11.70 m long) above.

No. 5133 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **steel cable** (approx. 4 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick release fastener.
Colour: ● £ 103.80 / each

No. 5134 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (approx. 5 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick release fastener.
Colour: ● £ 113.50 / each

9.50 m long, 6-point suspension, fibreglass-reinforced polyester rods sewn into the sides at each end and Kevlar cable (11.70 m long) above.

No. 5166 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords with quick-release fastener.
Colour: ● £ 131.90 / each

Long Volleyball Nets (for training)

No. 5030 **Knotless** long volleyball net in approx. **3 mm high tenacity polypropylene** with polyester headband.
Kevlar cable length: net length + 2 m
Colour 06: Black £ 10.10 / metre

No. 5020 **Knotless** long volleyball net in approx. **2.3 mm high tenacity polypropylene** with polyester headband.
Kevlar cable length: net length + 2 m
Colour: ● £ 8.70 / metre

No. 5030-06

When ordering, please specify which colour you require! (e.g. 5133-06)

● = 06 = black

Volleyball Training Nets

Regulation dimensions: 9.50 m long, 1 m high, mesh size 10 cm, steel or Kevlar cable, or nylon tie cord (11.70 m long).

No. 509 Volleyball net in approx. **2 mm polyethylene cord**, 9.50 m long, 1 m high, **with nylon tie cord**.
Colour: ● £ 38.60 / each

No. 501 Volleyball net in approx. **2 mm polyethylene cord** with **3 mm steel cable**.
Colour: ● £ 47.70 / each

No. 503 Volleyball net in approx. **3 mm high tenacity polypropylene** with **4 mm steel cable**. Heavy-duty design.
Colour: ● ● £ 67.20 / each

No. 5032 Volleyball net in approx. **3 mm high tenacity polypropylene** with **11.70 m Kevlar cable**. Heavy-duty design.
Colour: ● £ 78.60 / each

The reinforced edges of all training nets are made of high quality UV-resistant material.

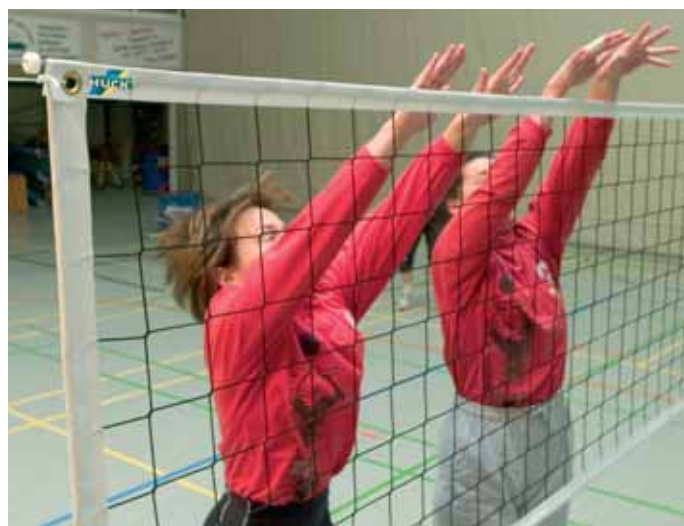

When ordering, please specify the colour of the net!

e. g. 503-01 = Volleyballnet in colour green.

● = 01 = green ● = 06 = black

"Exclusive" Training Net

No. 5011 Volleyball net in approx. **2.3 mm high tenacity polypropylene**, reinforced all round with tarpaulin, 11.70 m steel cable above, fibreglass-reinforced polyester rods sewn into the sides, additional tie cords on all four corners.
Colour: ● £ 75.00 / each

No. 5011-06

Quick Assembly Training Nets

With school volleyball in mind, we have designed a practice net that can be set up very quickly (1 minute). It is made of polyethylene Raschel fabric and is approx. 70 cm high. There is a 50 cm long elastic loop in each corner but no steel cable or reinforced surround.

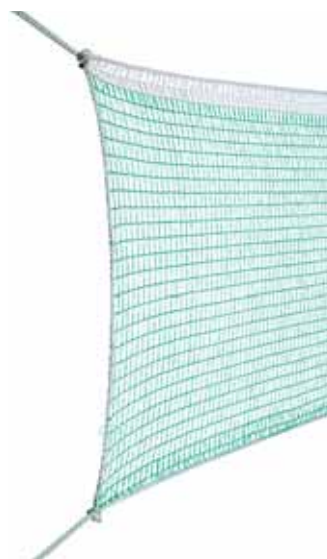

No. 511 Training net for quick assembly, **length 10 m**.
Colour: ● with white selvage £ 33.60 / each

No. 512 Training net for quick assembly, **length 3.50 m**.
Colour: ● with white selvage £ 21.80 / each

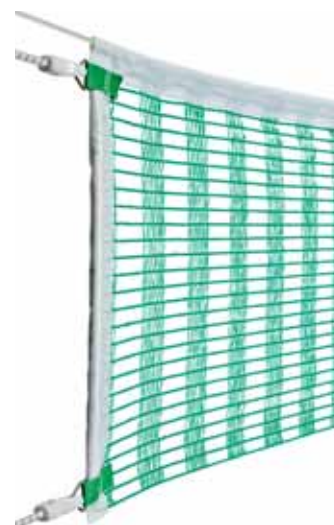

Other lengths available upon request.

... and the professional versions:

No. 515 Training net for quick assembly, 0.40 × 10 m, made of **reinforced Raschel fabric with reinforced headband**. Tensioning of the net is improved by PES rods at the sides, the tension cord with Clamcleat cleat along the top and elastic loops with snap hooks fitted at the bottom on both sides.
Colour: ● £ 54.00 / each

No. 511

No. 515-01

Items 509–515 cannot be supplied with steel or Kevlar cables.

Volleyball Antennae

According to the rules of international volleyball, antenna pockets must incorporate a white strip, 5 cm wide, which serves as a boundary marker, and a black pouch for the antenna. The white boundary marker and black pouch must form a complete unit (see photos).

- No. 502** **One-piece volleyball antennae** with DVV approval. Length 1.80 m. Supplied **complete with coated polyester pockets** and boundary marker. £ 45.60 / pair
- No. 5021** **Two-piece volleyball antennae.** Length 1.80 m. Supplied complete like item 502. DVV approved. **Improved design: the join is extremely stable, which increases the stability of the equipment (see photo in the bottom right-hand corner).** £ 50.40 / pair

The new woven Polyester support pocket can even withstand extreme loads, such as e.g. this attack.

International Volleyball Federation rules state that only one-piece net antennae may be used at official tournaments.

According to the DVV testing body for materials, two-piece antennae with a stable join in the protected part of the pouch are also permitted. **Our two-piece antennae meet these safety standards.**

Volleyball Antennae without Pockets

- No. 5025** One-piece volleyball antennae, length 1.80 m, without pockets. £ 18.90 / pair
- No. 5026** Two-piece volleyball antennae, length 1.80 m, without pockets. £ 23.10 / pair

Antenna Pockets

- No. 5023** High frequency **welded pockets** for volleyball antennae with **coated polyester** boundary marker. £ 28.10 / pair
- No. 5053** **Integrated pockets** with DVV approval, as no. 5023, but **already fitted to net.** £ 35.00 / pair

Improved design:
the two pieces meet in the
protected part of the pouch
and the join is extremely stable.

No. 5021

Sit Volleyball Net (size: 0.80 × 6.50 m)

- No. 5266** **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords with quick-release fastener.
Colour: ● £ 123.50 / each

Sit Volleyball Net with printed headband upon request.

Net Accessories

- No. 535** **Tie cords** for DVV I and II-approved volleyball nets with quick-release fastener, 2 m long (see photo). 4 or 6 cords required per net. These cords can only be used with volleyball nets that have fibreglass polyester rods at the sides.

£ 5.70 / each

- No. 537** **Spare tensioner**, black, for tensioning the net (see photo).

£ 2.40 / each

No. 537/535

Spare parts for retrofitting volleyball nets.

- No. 5020** Volleyball **antenna pockets** with **Velcro fastening** for a quick and easy attachment to net.

£ 28.10 / pair

- No. 9082** **Spare cable** in 4 mm dia. galvanised **steel**, length 11.70 m with 2 loops.

£ 20.30 / each

- No. 9083** **Spare tensioning cable** in **Kevlar** aramid fibre, length 11.70 m, with 2 loops.

£ 25.20 / each

- No. 9084** Surcharge for supplying volleyball nets with 11.70 m long **Kevlar cable** (instead of steel cable).

£ 12.80 / each

No. 5020

No. 9082

No. 203 Black, knotless high tenacity polypropylene, approx. 1.5 mm

Tennis Nets

The dimensions of our standard nets for doubles courts conform to ITF (International Tennis Federation) and DTB (German Tennis Federation) regulations: 12.72 m × 1.07 m (imperial: 42 ft × 3.5 ft) for installation dimensions that comply with DIN EN 1510.

The headband is made of extremely durable woven polyester and UV-resistant. The nets are fitted with a steel wire cable encased in plastic (13.20 m long) and can be used with all new net posts..

Other steel wire cable lengths available too.

In 2015 Huck Nets (UK) acquired Edwards Sports Products one of the oldest net brands in Europe

Edwards Tennis nets are also used at the current Tennis Grand Slam Tournament in Wimbledon 2021.

Tennis nets with no rows of double mesh in regulation ITF and DTB doubles court dimensions: 12.72 m × 1.07 m (imperial: 42 ft × 3.5 ft), for installation dimensions that comply with DIN EN 1510.

- | | |

| No. 900 | Knotted tennis net in 3 mm braided polyethylene. |
| Colour: ● | £ 114.70 / each |
| No. 9000 | Knotted tennis net in 3 mm braided polyethylene, all sides taped. |
| Colour: ● | £ 123.50 / each |

No. 900 / No. 9000

Items 900 and 9000 can also be supplied with vinyl edging upon request (Edwards quality).

Singles court nets are also available upon request, tennis nets with integrated center strap see page 5.4.

Important: If longer steel cables are needed (especially for older sets of posts), please specify when ordering!

We do not undertake repairs on tennis nets from other manufacturers!

No. 8031-06

No. 803 / No. 8031

No. 8041

Tennis Nets

Tennis nets with no rows of double mesh in regulation ITF and DTB doubles court dimensions: 12.72 m × 1.07 m (imperial: 42 ft × 3.5 ft), for installation dimensions that comply with DIN EN 1510.

- No. 802** **Knotless** tennis net in approx. **2.3 mm high tenacity polypropylene** (for leisure use).
Colour: ● £ 91.20 / each
- No. 803** **Knotless** tennis net in approx. **3 mm high tenacity polypropylene**.
Colour: ● £ 114.70 / each
- No. 8031** **Knotless** tennis net in **3 mm polypropylene**, all sides taped.
Colour: ● £ 123.50 / each
- No. 8041** **Extremely strong tennis net** made to withstand the highest demands featuring our proven **knotless** mesh, in **4 mm high tenacity polypropylene**, and **reinforced surround**.
Colour: ● £ 153.80 / each

“Merlin” represents the second generation of knotless square-meshed nets. It follows “Excalibur” and is designed to meet very high quality standards. In addition to standard quality features such as:

- the fixed mesh produced by our knotless manufacturing technique
 - high dimensional stability
 - optimum visibility with no rows of double mesh (most international tennis tournaments use single-mesh nets),
- this net is made of thicker material and therefore heavier so it “falls” better.

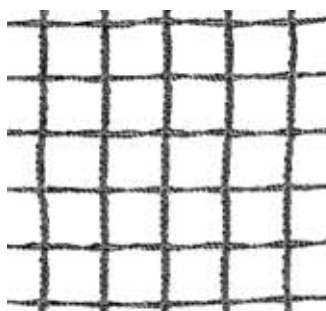

- No. 8081** “Excalibur” tennis net in approx. 2.5 mm polyester.
Colour: ● ● £ 114.70 / each
- No. 8091** “Merlin” tennis net in approx. 3.5 mm polyester.
Colour: ● ● £ 175.60 / each

All tennis nets can be fitted with a 5 mm Kevlar aramid fibre cable for a surcharge.

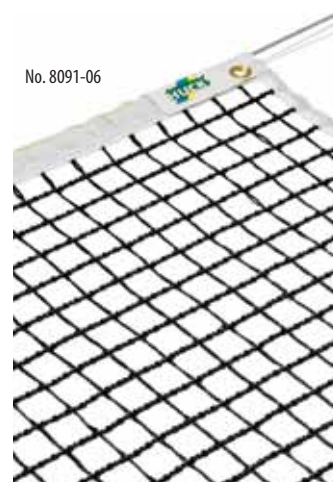

This avoids the problem of kinks forming in the steel cable when tennis nets are dismantled.

● = 01 = green ● = 06 = black

Standard Dividing Nets for indoor and outdoor tennis courts

Additional features included in the price:

- a) Steel wire cable, approx. 4 mm thick and 38 mm long, with a turnbuckle at each end.
- b) Lead cord weighting, 200 g per m, encased in PES webbing and attached to the net.
- c) Split nylon rings, 3 per m, attached to net.

No. 220	Dividing net in approx. 2.3 mm high tenacity polypropylene, mesh size 4.5 cm. Dimensions: approx. 40 × 2.50 m . Colour: ● ● ○ ● £ 481.50 / panel	No. 221	Dividing net , like item 220 but 40 × 3 m . Colour: ● ● ○ ● £ 552.90 / panel
----------------	---	----------------	---

For **indoor use**, we recommend the color **015 dark green** and **02 white**.
For **outdoor use** the color **01 green** and **06 black**.

No. 2205	Freestanding telescopic support posts for standard dividing nets. Fully adjustable between 2 and 3 m. £ 48.80 / each
-----------------	--

In order to protect the lower part of the net, items 2201 and 2211 have a strip of plastic-coated polyester, approx. 15 cm wide, along the bottom.

These nets do not have lead cord weighting.

No. 2201	Dividing net in approx. 2.3 mm high tenacity polypropylene, mesh size 4.5 cm. Dimensions: approx. 40 × 2.50 m . With a strip of plastic-coated polyester, approx. 15 cm wide , along the bottom. Colour: ● ○ ● £ 481.50 / panel	No. 2211	Dividing net like item 2201 but 40 × 3 m . Colour: ● ○ ● £ 552.90 / panel
-----------------	--	-----------------	--

● = 01 = green ● = 015 = dark green ○ = 02 = white ● = 06 = black

When ordering, please specify which colour you require! (e.g. 220-015)

Standard Dividing Nets with flame retardant finish

Additional equipment included in the price:

a) Steel wire cable, approx 4 mm thick and 38 m long, with a turnbuckle at each end.

b) Lead cord weighting, 200g per m, encased in PES webbing and attached to the net.

c) Split nylon rings, 3 per m, attached to the net.

No. 220F Dividing net in 2.3 mm high tenacity polypropylene, in flame retardant finish.
Mesh size approx 4.5 cm. Dimensions: approx. 40 × 2.50 m
Colour: ● ○ £ 529.40 / each

No. 221F Dividing net like item 220F, but 40 × 3 m.
Colour: ● ○ £ 610.90 / each

Dividing Nets in custom sizes

No. 200-045 Safety net made of approx. 2.3 mm high tenacity polypropylene, mesh size approx. 45 mm.
Colour: ● ● ○ £ 2.10 / m²

No. 200F045 Safety net made of approx. 2.3 mm high tenacity polypropylene, flame retardant finish, mesh size approx. 45 mm.
Colour: ● ○ £ 3.30 / m²

Surcharge for smaller nets: per single net

For each net below 1 m² + 200 %
For each net below 5 m² + 100 %
For each net below 10 m² + 35 %
For each net below 20 m² + 20 %

For hanging and tensioning the nets, we recommend:

No. 2102 Steel wire cable, zinc-coated, 4 mm thick.
£ 1.50 / metre

No. 2103 Also:
Grommets and tensioning locks on both sides for 4 mm cable £ 19.60 / surcharge

No. 2111 Lead cord encased in webbing fixed to net, 200g per metre.
£ 5.50 / metre

No. 2122 Split nylon rings, ø 9 mm, length 53 mm, width 30 mm, inner length 35 mm, black, 3 rings attached to net per metre.
£ 3.80 / metre

Tennis Court Surrounds and Indoor Panelling

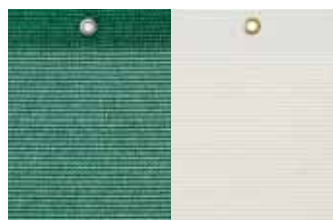

Our surrounds and indoor panelling are manufactured from breathable polyethylene and therefore do not damage fencing. Ideal for advertising. Every surround is reinforced all round and comes with metal eyelets at a distance of ca. 50 cm. Snap hooks come with each surround.

- No. 700** **Standard tennis court surround, 200 g/m², 12 m long, 2 m high, breathable.** 56 snap hooks supplied loose with every surround.
 Colour: ● ● ● £ 116.80 / each
 Colour: ● ● £ 131.90 / each

- No. 712** **Tennis court surround like item 700, 2 m high,.**
 Colour: ● ● ● £ 9.90 / metre
 Colour: ● ● ● ● £ 11.20 / metre

- No. 710** **Tennis court surrounds/indoor panelling, 200 g/m², in any dimensions made of Polyethylene fabric.**
 Optional: a hollow seam, approx. 5 cm wide, along the bottom to hold a lead cord (see page 6.6).
 Colour: ● ● ● £ 7.60 / m²
 Colour: ● £ 7.70 / m²
 Colour: ● ● ● ● £ 8.50 / m²

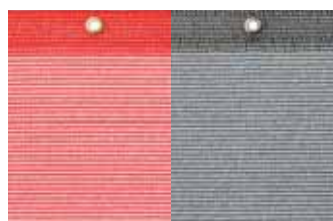

- No. 766** **Tennis court surrounds/indoor panelling, 230 g/m², opaque fabric in any dimensions made of monofilament Polyethylene fabric/tape.**
 Colour: ● £ 8.80 / m²

No. 712-015 No. 712-02

No. 712-04 No. 712-03

No. 712-07 No. 712-65

When ordering, please specify which colour you require! (e.g. 700-015)

- No. 776** **Tennis court surrounds/indoor panelling, 320 g per m², in a particularly opaque, flame-retardant fabric in Polyethylene monofilament/tape, in any dimensions.**
 Colour: ● ● ● ● ● £ 11.90 / m²

(Cream colour does NOT have flame retardant finish)

No. 710-010 No. 710-04

No. 710-76 No. 710-66

No. 776-015 No. 776-04

No. 776-65 No. 776-86

- = 010 = green ● = 07 = red ● = 76 = terracotta
 ● = 015 = dark green ● = 03 = orange ● = 65 = anthracite (dark-gray)
 ○ = 02 = white ● = 86 = cream
 ● = 04 = blue ● = 66 = silver

Surcharges for smaller surrounds for each item 710, 766 and item 776:

- surrounds below 1 m² + 200 %
 surrounds below 5 m² + 100 %
 surrounds below 10 m² + 35 %
 surrounds below 20 m² + 20 %

Item No. 700 & 712: longest sides with double knitted edge, the 2m long sides hemmed.

Item No. 710, 766 & 776: hemmed all around.

Snap hooks for Tennis Court Surrounds and Indoor Panelling

No. 21210	Galvanised snap hooks for suspending tennis court surrounds. £ 13.50 / bag of 56
No. 2121	Spare snap hooks , galvanised. £ 0.25 / each
No. 21212	Plastic snap hooks for suspending tennis court surrounds £ 13.50 / bag of 56
No. 21211	Plastic snap hooks for suspending tennis court surrounds. £ 0.25 / each

We recommend our galvanised steel wire cables with cable eyes and a turnbuckle at both ends for suspending and tensioning the panelling.
For other weighting and suspension accessories, see pages 6.5 and 6.6.

Printed Advertising on HUCK Tennis Court Surrounds using special weatherproof dye.

The lettering is airbrushed.

Before each job, you will receive a proof to scale, showing you how your printing will look.

If nets made to special requirements have a square mesh, it is **technically impossible to supply all net sizes without a seam.**

All nets are manufactured with diagonal mesh to the greatest possible width and then converted to square mesh.

The resulting seams cannot be avoided for technical reasons and do not reduce the quality of the net.

When ordering, please specify which colour you require.
(e.g. 212-100-07 = PP high tenacity, approx. 5 mm, mesh 100 mm, red)

Huck Nets = high quality

Standard Stop Nets, single-coloured

Safety and stop nets supplied by the metre in any length. Width: 5 m.

- No. 2140-120** High tenacity polypropylene, approx. 3 mm, mesh size 12 cm.

Prices excluding VAT

All safety and stop nets can be supplied with the following features:

**For tensioning and suspension of our nets,
we recommend our galvanised steel wire cables with cable eyes and
a turnbuckle at each end:**

No. 2100	Galvanised steel wire cable, 6 mm.	£ 2.10 / metre
No. 2101	Plus cable eyes and turnbuckle at both ends of the 6 mm cable.	£ 24.50 extra charge
No. 2102	Galvanised steel wire cable, 4 mm.	£ 1.50 / metre
No. 2103	Plus cable eyes and turnbuckle at both ends of the 4 mm cable.	£ 19.60 extra charge
No. 2097	Steel wire cable, PVC-coated , 5/7 mm thick	£ 2.30 / metre
No. 2099	Steel wire cable, PVC-coated , 4/5 mm thick	£ 2.20 / metre
No. 2098	Steel wire cable, PVC-coated , 3/4 mm thick	£ 1.90 / metre

**For weighting our nets,
a lead cord encased in webbing and attached to the net:**

No. 2110	Weight 400 g per metre.	£ 7.00 / metre
No. 2111	Weight 200 g per metre.	£ 5.50 / metre
No. 2112	Lead cord weighting, 200 g per metre, attached to the net without webbing.	£ 3.70 / metre

**For suspending nets
so that they move freely on the steel wire cable:**

No. 2122	Split nylon rings, 9 mm in diameter, 53 mm long, 30 mm wide, inside length 35 mm, black, 3 rings attached to the net per metre.	£ 3.80 / metre
No. 2123	Split nylon rings, loose.	£ 0.70 / each

**For additional protection
and for securing nets to existing borders or straps:**

No. 2116	Net surround made of polyester webbing, 100 mm wide. (50 mm wide when folded back) Colour: ○	£ 5.70 / metre
-----------------	--	----------------

No. 2116-02

Universal Barrier Fencing

Quick and economical to erect and easy to transport, this barrier fencing is
ideal for marking out boundaries at sports events.

It is made of **breathable lightweight material**, **requires very little space
for storage and transport** and is easily moved. No posts necessary.

No. 7010-01	Barrier fence made of green UV-resistant polyethylene. The posts are made of flexible fibreglass-reinforced polyester, 9 mm in diameter and woven into the material so they cannot be lost.
	£ 99.60 / each

Length of fence	20 m
Fence height (fabric)	80 cm
Length of pole	1.10 m
Distance between poles	1.80 m
Total weight	3.30 kg
Complete with 4 ground anchors and tension cords for securing the corners.	

Packaged in sales box

No. 7010-01

When ordering, please specify which colour you require.

(e.g. 200-120-04 = PP high tenacity, approx. 2.3 mm, mesh 100 mm, **blue**)

See pages 6.3 and 6.4 for other materials and colours.

No. 200F045-015 + No. 775-015

Partition Curtains for Gymnasiums

The lower section of net can be replaced by breathable fabric to make them more opaque.

- No. 200-045** Safety net in approx. **2.3 mm high tenacity polypropylene**. Mesh size 45 mm.
Colour: ● ● ○ ● £ 2.10 / m²
- No. 720A** Breathable plastic tarpaulin in **double-ribbed polyethylene fabric**, approx. **200 g/m²**, reinforced with tape all around.
Colour: ● ● ○ ● £ 6.80 / m²
Colour: ● ● ● ● £ 7.70 / m²
- No. 7222** Tarpaulin 720A **attached/sewn** on to safety net 200-045. £ 6.70 / metre

Nets with tarpaulins (blue) available on request

Prices excluding VAT

... with flame-retardant properties

The nets and sheets have been tested and meet the requirements of DIN 4102 (highly fire-resistant material).

- No. 200F045** Flame-retardant safety net in approx. **2.3 mm high tenacity polypropylene**. Mesh size approx. 45 mm.
Colour: ● ○ ● ● £ 6.30 / m²
- No. 7710** Breathable plastic tarpaulin in **high tenacity polypropylene**, approx. **510 g/m²** in tightly woven, flame-retardant fabric, and selvedge all the way round.
Colour: ● ○ ● £ 18.20 / m²
- No. 775** Breathable plastic tarpaulin in **polyethylene fabric**, approx. **320 g/m²**, flame-retardant fabric, and selvedge all the way round.
Colour: ● ● £ 11.30 / m²
- No. 7222** Tarpaulin 7710/775 **attached/sewn** on to safety net 200F045. £ 6.70 / metre

As these combinations of netting and tarpaulin have to be manufactured individually for each sports hall, please enquire about an entire solution **in advance**.

The nets/tarpaulins are not the same size as the area to be covered and the actual size you require must be calculated first.

Net weighting

attached to the net with a lead cord inside a band:

- No. 2110** per metre 400 g weight £ 7.00 / metre
- No. 2111** per metre 200 g weight £ 5.50 / metre

Play Area Safety Net

Nets are the ideal way to secure all sorts of play areas from ball pools to multi-trampoline facilities. We supply our knotless netting in a variety of colours to suit every facility.

We recommend:

No. 209-045 **Knotless net** made of approx. **3 mm high tenacity polypropylene**, mesh size 45 mm.

Colours: ● ○ ● ● ● ● ● £ 3.60 / m²

No. 209-045 **Knotless net** made of approx. **3 mm high tenacity polypropylene**, mesh size 45 mm.

Colour: 4F ●●●● (4coloured) £ 7.00 / m²

No. 209-045-05 Play Area Safety Net

'No-Climb' nets makes the nets more difficult to climb, thus providing additional safety.

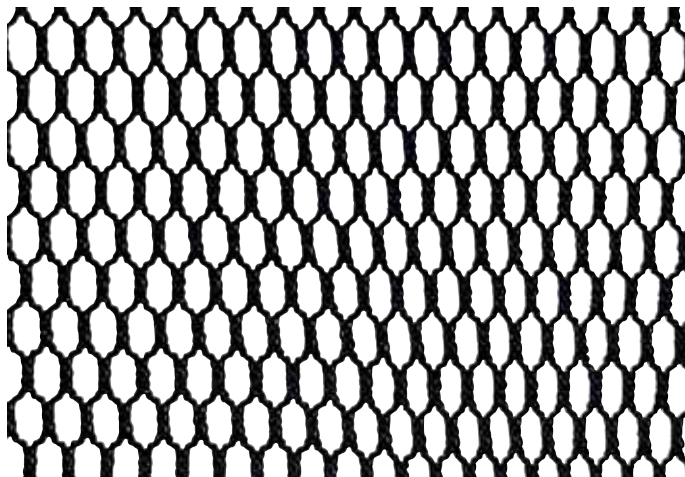

No. 204F008 **Knotless netting** in approx. **1.8 mm PES**, mesh size approx. 8 mm, hexagonal, **in flame-retardant finish.**

Colour: ● £ 12.40 / m²

No. 203-008 **Knotless netting** in approx. **1.5 mm Polypropylene high tenacity**, mesh size approx. 8 mm, hexagonal.

Colour: ● £ 10.90 / m²

Items 204F008 and 203-008 in hexagonal mesh size are only cut and can be edged with a band on request.

No. 203-008-06

Children love colours!

So we have designed a net that is blue, red, yellow and green.

It is totally safe and really stands out making it an attraction in itself!

Flame-retardant Safety Nets

These knotless nettings in different colours and with **flame-retardant** properties are an important new development in that respect.

These safety nets can also be used outdoors without losing their flame-retardant properties.

The nets have been tested and meet the requirements of DIN 4102 resp. EN 13501-1 (highly fire-resistant material).

Basketball Nets

*Competition nets conforming to DIN EN 1270
in regulation dimensions: 50 cm long (40 cm when fitted).*

Our competition nets were developed in cooperation with the Technical Standards Committee for Sports and Leisure Equipment.

The net is designed to reduce basketball velocity, thereby ensuring scoring visibility.

- No. 224** **Basketball net** in approx. **4 mm** braided nylon conforming to DIN EN 1270.
Colour: ○ £ 7.00 / each
- No. 225** **Basketball net** in approx. **6 mm** braided nylon conforming to DIN EN 1270.
Colour: ○ £ 8.70 / each
- No. 226** **Anti-whip basketball net** in approx. **6 mm** braided polyester. The suspension loops have a certain rigidity which prevents the net whipping back.
Colour: ○ £ 9.20 / each

Recreational and practice nets for street basketball or games in the garden.

Our recreational and practice nets are a lighter version of our competition nets. We recommend these nets for outdoor games.

Use of our hammer-throwing nets during the 2012 Southern German Athletics Championships in Wetzlar.

Hammer and Discus Throwing Safety Nets

The Standards Committee NA 112-01-01 AA "Athletic Equipment", that Manfred Huck GmbH is an active member of, was responsible for drawing up the Standard **DIN 79007-3**, which sets out the requirements and test methods for hammer and discus throwing safety net equipment.

Hammer Throwing Safety Nets DIN 79007-3

For hammer throwing nets there are requirements of the geometry of safety net equipment, which means that at the rear, the height of the nets from the ground must be at least 7 m, increasing to 10 m from the last 2.80 m before the pivot points.

A safety net meeting the standard EN 1263-1 Type B1 with a mesh size of 45 mm - 1 mm must be used to disperse the kinetic energy. They have to be edged with a 12 mm (30 KN) rope along the top and down the two sides in order to meet the requirements of the Standard.

These nets likewise meet the DLV Regulation 192.3, which, for hammer throwing safety nets, are to have 9-panel cages with 2 tilted wings, 2 metres wide

(Dim.: $9 \times 2.80 \text{ m} + 2 \times 2 \text{ m} = 29.20 \text{ m}$).

Our hammer throwing nets are made in knotless form from polypropylene with a diameter of approx. 5 mm.

No. 650 **Hammer throwing safety net** for Safety Net Equipment of 7 m rising to 10 m. **Diagonal mesh.**
Net size: 7.50 m rising to 10.50 m, approx. 31.50 m long
 Colour: ● £ 2,094.10 / each

No. 651 **Hammer throwing safety net** for Safety Net Equipment of 7 m rising to 10 m. **Square mesh.** Including set of 10 extra PP ropes, approx. 9 mm thick and 10.80 m long
Net size: 7.50 m rising to 10.50 m, 31.50 m long
 Colour: ● ● £ 2,610.10 / each

Discus Throwing Safety Nets DIN 79007-3

The surrounding discus safety net must reach at least 6 m from the ground. Safety nets meeting the standard EN 1263-1 Type B1, with a highest mesh size of 45 mm ± 1 mm must also be used.

Our discus throwing safety nets are made in knotless form from polypropylene with a diameter of approx. 5 mm.

No. 613

NEW

Discus Throwing Safety Net for Safety Net Equipment 6 m high, **square meshes.**

Net Size: approx. 6.50 m high x 27 m long.

Colour: ● ● £ 1,638.70 / each

No. 614

NEW

Discus Throwing Safety Net for Safety Net Equipment 6 m high, **diagonal meshes.**

Net Size: approx. 6.50 m high x 27 m long.

Colour: ● £ 1,590.80 / each

Please note:
when ordering, please specify the mesh design or include a drawing!!!

No. 640-01

Hammer Throwing and Discus Safety Nets for Old Equipment

These nets are only different in terms of their size, in particular their **height**. These nets are likewise manufactured from polypropylene, approx. 5 mm diameter with a mesh size of approx. 45 mm. The nets meet the requirements of the Standard EN 1263-1 Type B1.

In such cases the safety net equipment must be constructed in such a manner that it withstands the kinetic energy of

- a) 3.72 kJ for a hammer throw (7.26 kg hammer at 2m/s) and
- b) 0.63kJ for a discus throw (2 kg Discus at 25 m/s).

As some equipment is combined, for safety reasons nets meeting the EN 1263-1 Type B1 standard should always be used.

*Discus safety net for a standard 7-panel cage
(cage size: $7 \times 2.74 \text{ m} = 19.18 \text{ m}$).*

*Hammer throwing safety nets for cages with 2 tilted wings with 2 metres width
(cage size: $7 \times 2.74 \text{ m} + 2 \times 2 \text{ m} = 23.18 \text{ m}$).*

No. 610 Hammer & Discus throwing safety net for 4 m high structures.
Net size: $4.50 \times 21 \text{ m}$ long. Surround ropes attached on lateral and upper edges of net with 8 mm dia. cord.
Colour: ● £ 750.40 / each

*Discus safety net conforming to new DLV (German Athletics Association) regulation 190.3 for a 7-panel cage with 2 additional 2 m wide tilting wings
(cage size: $5 \times 3 \text{ m} + 2 \times 3.70 \text{ m} + 2 \times 2 \text{ m} = 26.40 \text{ m}$).*

No. 612 Discus safety net for a cage height of 4 m.
Net size: 4.50 m high and 27 m long.
Colour: ● £ 839.50 / each

No. 620 **Hammer & Discus throwing safety net**, like item 610 but for a cage height of 4.50 m that rises to 5 m at the sides.
Net size: rises from 5 to 5.50 m high, 25 m long.
Colour: ● £ 1,002.50 / each

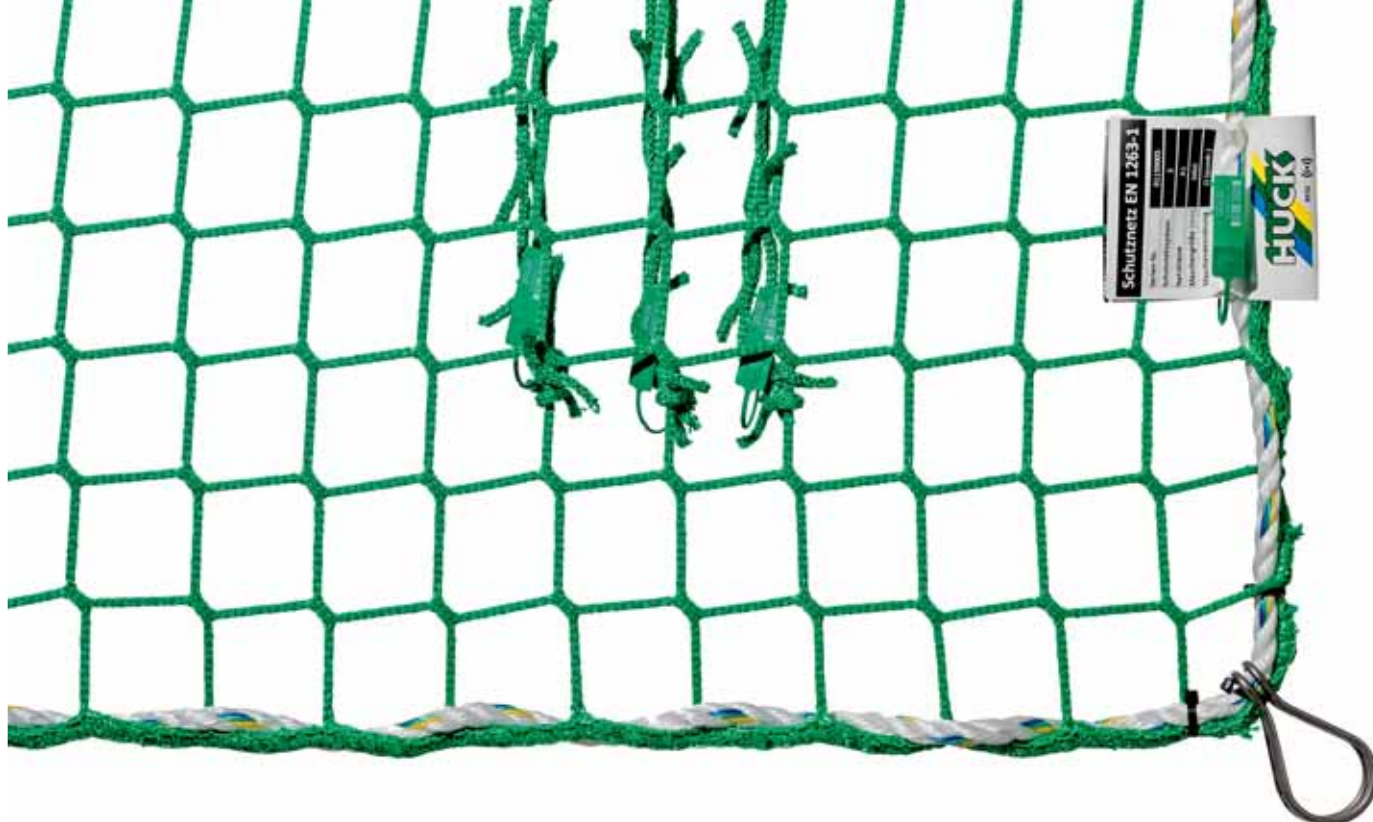

No. 621 **Hammer & Discus throwing safety net**, as per No. 620, for 5 m high frames. **Net size:** $5.50 \text{ m} \times 25 \text{ m}$.
Colour: ● £ 1,002.50 / each

No. 630 **Hammer & Discus throwing safety net**, as per No. 620, for 5.50 m high frames. **Net size:** $6 \text{ m} \times 25 \text{ m}$.
Colour: ● £ 1,266.40 / each

No. 640 **Hammer & Discus throwing safety net**, as per No. 620, but for panel heights rising from 7 to 9 metres in the wing area.
Net size: rising from 7.50 to $9.50 \text{ m} \times 26 \text{ m}$ long.
Colour: ● £ 1,908.40 / each

Where frames for double nets with a panel height of up to 5 m are used, Net 610 is used as the outer net and net No. 620 or 621 as the inner net. For panel heights up to 5.50 m net No. 621 is used as the outer net and net No. 630 as the inner net.

Hammer throwing nets for other cage dimensions and indoor hammer throwing nets are available on request.

Test meshing

The mesh durability and the ability of the textile materials to absorb energy is limited by exposure to UV light. In order to ensure that the net has the required capacity to absorb energy, the nets must be adequately tested.

Every test mesh consists of at least 3 mesh samples, in order to test the ability to absorb energy in the tension testing machine.

In order to identify the test piece of mesh sample and the relevant net, seals with the same identity number must be brought.

The number of test meshes is sufficient if, depending on the user intensity, a minimum duration of 5 years can be documented.

Ariel Work Platform

This is a device that allows a person to pull up a net from the ground and let it drop down. It must be designed so that it can be operated manually, without any additional help, the person putting the nets up can fix them in position and can secure them against unintended loosening.

The cable for the ariel work platform must be able to withstand a minimum strength of at least 15kN.

Weighting down

The net must be assembled so that it can be positioned on the ground. The design of the bottom of the net must ensure that

- Any gusts of wind do not obstruct the thrower (e.g. bulging of the net)
- The launcher cannot pass underneath the net to the outside of the throwing area, and
- The net has sufficient give to absorb the kinetic energy.

Labelling

The labelling must be legible and permanent, and the nets must contain at least the following details:

- The number of this national standard
- Name and address of the manufacturer, distributor or importer,
- Labelling in accordance with DIN EN 1263-1

Wind Pressure

Wind Pressure tests were carried out for our nets, in order to ensure that the corresponding cages could cope with the wind pressure and thus we know that this is taken into consideration when erecting and operating the safety net equipment.

The load-bearing construction, including erected nets, must withstand a sustained wind speed of 10 m/s.

Test set-up to measure the wind load

No. 636: Sacks for net weighting

Labelling affixed to every net.

No. 635 Attachment system for lifting nets

Accessories for Hammer Throwing Nets

No. 611 **Additional net for portable support frames**
in case frame of 7 panels is supplemented with two additional frames. This set-up requires 2 nets of 2 m x 5.50 m. Material as No. 610.
Colour: ● £ 267.20 / pair

No. 635 **System for securing hammer throwing nets.**
In order to make hammer and discus safety nets easy to assemble and dismantle, they are edged with 12 mm rope along the top and down the two front sides. Cable eyes and corresponding pull cords are integrated along the top for lifting the net (see photo). This system is suitable for all hammer and discus safety nets.
£ 190.80 system

No. 636 **Net ballast bag** made of small woven HDPE bands.
Ballast not included. £ 5.60 / each

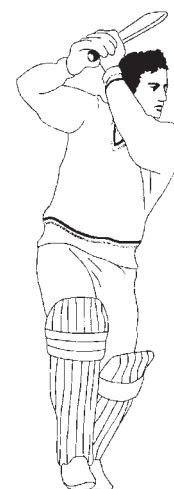

No. 637 **Set of 10 extra PP ropes**, approx. 9 mm thick and 10.80 m long, integrated into the height of the net with 1 rope per panel and attachment point. These ropes give the cage shape and prevent the netting from entering the throwing area.
£ 75.20 / set

Baseball – a thriving sport from the USA

It is a sport that awakens both players and spectators' passions.

Intensive training is necessary to learn the best way to hit the ball and a ball which has been hit correctly goes a long way. Bringing it back either requires a volunteer or a lot of effort.

Therefore **a training tunnel is essential for stroke practice.**

No. 200-045 Ball control net for training tunnel in

Archery Protection Nets

Our protective nets are suitable for archery as a sport. They are not suitable for hunting archery. When assembling, the nets must not be tensioned but left slack like a curtain (extra: + 40 %). This type of system will efficiently collect stray arrows. Each net should not be longer than 4 m.

When installing a number of nets an overlap of 50 cm is recommended.

In the case of very intensive use, it is recommended that two layers of nets are installed.

No. 770 **Archery net** in very tightly woven polyester cloth, approx. 450 g/m², width 2.40 m, selvedge all the way round and fitted with eyelets every 30 cm on the upper section (see photo). These nets can be hung using steel cables, see the accessories on page 6.6.

Colour: ● £ 83.40 / metre

Only available in standard width.

No. 771 **Archery net** in high tenacity polypropylene, approx. 510 g/m² in tightly woven, flame-retardant fabric, fitted with eyelets every 30 cm on the upper section, and selvedge all the way round, **in any dimension.**

The price of trapeziform nets is based on the longest and widest sides.

Ball stop net, "Ultra" made of PE, approx. 4.5mm thick braid/braid technology with high abrasion resistance and high cut resistance thanks to diameter strength

Nets in braided knotless netting technology

Nets in braided knotless netting technology (**SUPERCROSS**) combine the advantages of knotted nets (**high linear tensile strength of the cord**) with advantages of knotless netting in Raschel technique (**same breaking strength in twine and intersection**).

Furthermore the nets have a

- low abrasion in the mesh intersection

- a continuously precise mesh size

- a low elongation due to special textile technology.

Ball stop net „Ultra“ in braided knotless netting technology, approx. 4.5 mm thick

£ 147.10 / each

for No. 5044-06-F1
and No. 5044-06-F40

Beach Volleyball Tournament Nets for a Playing Area of 8 × 16 m

In 2001, the world international volleyball federation, the FIVB, decided to adopt the rally point method of scoring for beach volleyball and reduce the size of the playing area for a trial period. The dimensions used in international tournaments are now 8 × 16 m instead of 9 × 18 m.

This means that volleyball nets and boundary markings of other sizes (8.50 × 1 m and 8 × 16 m respectively) are now required.

Our boundary marking No. 555 (page 9.3) can be adjusted to 8 × 16 m and is therefore suitable for use with this item.

Tournament net with polyester rods sewn into the sides, black netting.

Dimensions: 8.50 × 1 m, mesh size 10 cm with an 80 mm wide, coloured band all the way round.

No. 512-06-F3 **Beach volleyball tournament net** in approx. **3 mm knotless polypropylene** with a **10.70 m Kevlar** cord at the top and tensioning rope at the bottom. polyester band at the sides with fibreglass dowel reinforcement, **4-point suspension** and 4 tensioning cords with snap lock. 80 mm wide, **neon yellow band all the way round**.

£ 145.00 / each

No. 8200

Badminton-Nets Set

for Leisure, with integral fibreglass/polyester posts

No. 6200-01 **Badminton net for leisure** in rot-proof knitted polyethylene. Integral fibreglass/polyester net posts can be fitted together, which reduces their length for transportation. Quick and easy to assemble.

One set consists of:

1 Leisure Badminton net (length 6 m, height 70 cm) with integral **polyester/fibre glass poles**. Pole length: approx 1.80 m (90/90) Pole dia.: 12 mm: **2 tension cords and 4 ground anchor pins.**

£ 55.30 / each

Packing: in attractive sales box with 3 photographs showing use of the equipment.

Children's Tennis Net

with integral fibreglass/polyester posts

No. 8200 Manufactured in rot-proof knitted polyethylene. The integral, flexible fibreglass reinforced polyester net posts have the advantage that they are permanently fixed to the net and therefore cannot be lost.

The net is also therefore extremely easy and quick to set up.

Complete with 2 guy ropes and 2 anchor pins.

£ 32.70 / set

Length: approx. 6.00 m
Height: approx. 0.80 m
Post length: approx. 1.10 m
Post dia.: approx. 12 mm

Particularly suitable for leisure sport and camping.

Paddle-Tennis Net

A **new type of trend sport**, which is widespread in Spain and South America, is now taking off in the UK too.

It is a return play game like tennis, for courts 20 × 10 m in size.

No. 8430 **Paddle-Tennis net** in approx. **3 mm** high tenacity polypropylene, knotless, mesh size approx. 45 mm. Net length: 10 m, net height: approx. 92 cm, with a pvc-coated steel cable (3.4/4.5 mm) along the top and also with PES tape along the top, 100 mm wide (50 mm). Colour: ● £ 102.50 / each

Please state the distance between the posts when ordering!

No. 9052 **Centre strap** made of 100% polyester with plastic snap buckle and stainless steel snap hooks. £ 13.00 / each
(other accessories, see page 5.4)

Printed head band available upon request!

No. 8430-06

No. 8231-06-F3

Beach Tennis Tournament Nets

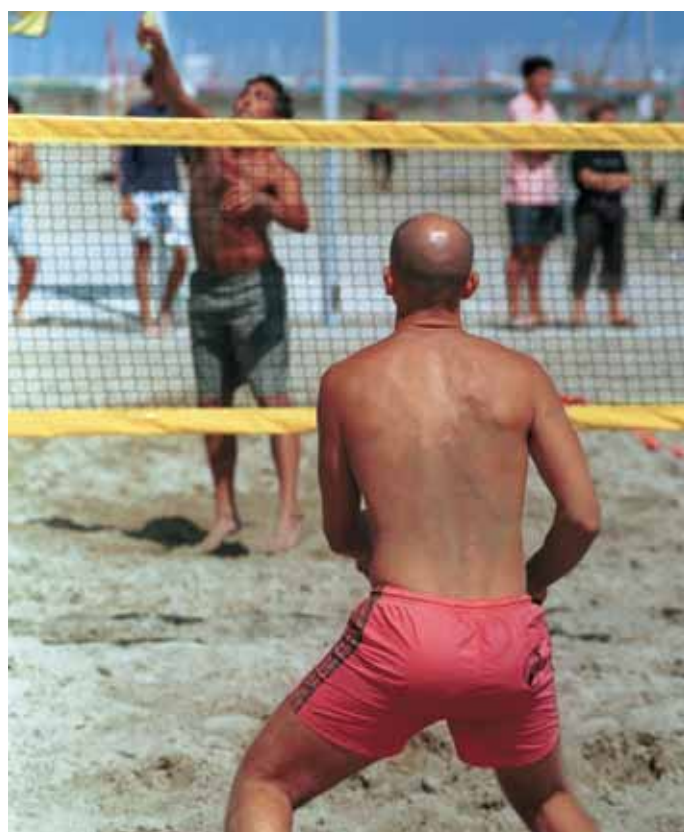

- No. 8231-06** **Beach tennis tournament net** made of approx. 3 mm high tenacity polypropylene. Mesh size: 45 mm. 80 mm wide neon yellow tape all the way round and Kevlar tension cord, 11.70 m long, along the top. Polyester rods and 4-point suspension with 4 tension cords and fastener at the sides.
Dimension: 9.50 m × 1 m
Colour: F3 ● £ 193.30 / each

Beach Tennis Court Marking

- No. 555** **Markings for play area** of 9 × 18 m with adjustable DBGM plastic corner pieces (adjustable to 8 × 16 m), 50 mm wide PES band with logo in the centre. Complete with 4 plastic ground anchors 23 cm long and bungee stretch cords.
Colour: ● £ 64.20 / each
- No. 554** **Court marking**, like article-no. 555, but with the size of: 8 × 16 m
Colour: ● £ 63.10 / each

Beach Tennis Training Nets

- No. 8220-06** **Beach tennis training net** made of approx. 2.3 mm high tenacity polypropylene. Mesh size: 45 mm, with **above** 160 mm wide (80 mm when folded) fastening tape in neon yellow and Kevlar tension cord 11.70 m long, and below with a 12 m length of 5.5 mm cord (patent applied for), and with lugs and connecting laces (without polyester bars) at the upper 2 corners.
Size: 9.50 m × 1 m.
Colour: F3 ● £ 91.20 / each
- No. 8221-06** **Beach tennis training net** made of approx. 2.3 mm high tenacity polypropylene. Mesh size: 45 mm, **with neon yellow ribbon binding all the way round**, being 160 mm (80 mm when folded) at the top, and 80 mm (40 mm when folded) at the sides and bottom, and having Kevlar tension cord 11.70 m long at the top and, below, 12 m length of 5.5 mm cord (patent applied for), and with lugs and connecting laces at the 4 corners, **and with polyester bars at the sides**.
Size: 9.50 m × 1 m.
Colour: F3 ● £ 143.70 / each
- No. 8222-06** **Beach tennis training net** as no. 8221-06, but:
Size: 8.50 m × 1 m

Beach Soccer Boundary Marking

No. 10192 **"International" pitch marking** for beach soccer, 36.50 × 27.50 m made from **100 mm wide blue webbing**, corners with **adjustable glass fibre-reinforced plastic pieces for 100 mm tape**, consisting of:

2 × 36.5 m tapes for sidelines, each with 11 m tapes for goal touchlines and corner pieces **already attached on either side** (both 36.50 m tapes have two 11 m tapes attached). These tapes each have an eyelet on one side for a rubber loop to attach them to a goal post. See illustration!

4 rubber loops for attaching side tapes to a goal post.

6 sand anchor plates with a bungee stretch cord for the 4 corners and the middle of the sidelines (the side band has an eyelet in the middle for attaching the sand anchor plates).

Colour: ● £ 439.50 / set

No. 10191 **"Competition" playing field marking** for beach soccer, 36.50 × 27.50 m, made of 100 mm wide blue webbing, with stitched corners and consisting of:

2 tapes of 36.50 m each for the sidelines

2 tapes of 27.50 m each for the goal touchlines

4 sand anchor plates with bungee stretch cords

Colour: ● £ 408.40 / set

The tapes are attached to each other at the corners to form **one** playing field with a total area measuring 36.50 × 27.50 m.

No 10192-04 (Detail: 1 tape with corner pieces, sand anchor plates and bungee cord)

Goal nets for small playing areas and multi-sports facilities / Outdoor

For freely accessible multi-sports complexes in accordance with EN 15312 up to 3m in height there are the following mesh size restrictions:

- for **square** meshes the mesh size must not exceed 50 mm.
- for **diamond** meshes the mesh size must not exceed 100 mm

Dimensions: width 3.10 m, height 2.10 m, top depth 80 cm, bottom depth 1 m.

- No. 126** Small pitch goal net made of strong knotless approx. **5 mm high tenacity polypropylene**, with additional edging cord in the goal area. Mesh size: approx. 45 mm.
Colour: ● £ 278.20 / pair
- No. 110** Small pitch goal net made of approx. **4 mm high tenacity polypropylene**, with additional edging cord in the goal area. Mesh size: approx. 45 mm.
Colour: ● £ 196.60 / pair

Dimensions: width 5.15, height 2.05 m, top depth 80 cm, bottom depth 150 cm.

- No. 1545-045** Small pitch goal net made of approx. **4 mm high tenacity polypropylene**, with additional edging cord in the goal area. Mesh size: approx. 45 mm.
Colour: ● £ 238.70 / pair

These goal nets have an additional cord in the goal area.

Safety nets per m² - on request -

- No. 212-045** Safety net in approx. **5 mm high tenacity polypropylene**, knotless. Mesh size: approx. 45 mm
Colour: ● ○ ● ● ● ● £ 8.60 / m²
- No. 212F045** Safety net in approx. **5 mm high tenacity polypropylene, in flame-retardant finish**. Mesh size approx. 45 mm

Football area nets with diamond mesh size see Page 10.4!

Replacement nets for small playing fields 13 x 20 m

- No. 2230** Ball safety nets in high tenacity approx. 5 mm polypropylene, knotless, mesh size approx. 45 mm, **for front end 13 x 2 m above 1 m-band, with 3 x 1 m-section for goal**
Colour: ● £ 385.70 / each
- No. 2231** **Football area net - main component 3.10 x 2 m** in approx. 5 mm high tenacity polypropylene, knotless, mesh size approx. 45 mm.
Colour: ● £ 112.20 / each

- No. 2232** **Panel net (for Article 2231), 2 x 0.70 m** in high tenacity approx. 5 mm knotless polypropylene mesh size approx. 50 mm. 2 panel nets required for 1 goal.
Colour: ● £ 69.30 / pair

Where possible, these nets should not be pulled over the frame, but, where possible, they should be drawn tight with the elastic cord in the goal frame area. Alternatively nets can be **threaded onto** the frame. In this case a diagram of the goal is needed to determine the right mesh size and dimensions!

Prices excluding VAT

Indoor-courts Stop Nets for sides and ceilings

Football Stop Nets / Indoor

When using conventional halls and indoor tennis courts **for indoor football and other fun sports**, stop nets are needed to protect spectators and facilities from stray balls.

Anti-vandalism nets made of PA coated steel cable 1.8/2.5mm (see page 10.8). Made in collaboration with the company FUNTEC

Anti-Vandalism Nets

Who is not familiar with the problem of nets that are cut up or burnt down on public playgrounds and sports areas?

Of course, wire-mesh or metal fences can be used. However, these products absorb hardly any of the noise they produce and when played against with balls etc. generate a lot of noise that disturbs the whole neighbourhood.

Textile products are ideal for noise protection; steel or wire products are ideal for protection against vandalism.

In order to be able to offer products that satisfy both requirements, we have developed three different products that, depending on the thickness of the steel core, ensure different levels of protection against vandalism and noise.

Product	Thickness of steel core	Textile coating	Total thickness	Mesh stability	Vandalism protection	Noise protection
Mahulan Steel (high tenacity PP)	1.25 mm (wire strand)	3.5 mm	4.75 mm	approx. 2.5 kN	x (light)	xxx (strong)
Clips-Net	2.5 mm (steel wire)	2.5 mm	5 mm	approx. 0.5 kN	xx (medium)	xx (medium)
Dralo®	1.5–6 mm (steel wire)	without	1.5–6 mm	approx. 0.8–3.5 kN	xxx (strong)	xx (medium)

Thanks to their steel core or steel wire, all the products offer a better protection against vandalism than purely textile nets.

"Mahulan Steel"

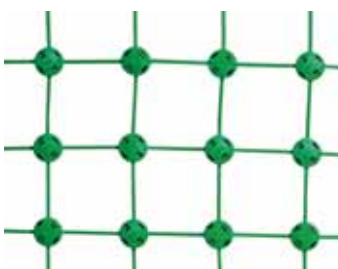

A completely new product from HUCK.
A machine-made safety net with a stainless-steel core (wire strand)

(DBGM 20 2006 011 018) with the product name "Mahulan steel".

Reinforced Textile Net

Steel wire coated with polyester (2.5/5 mm),
clipped together with plastic knot clips to form a square-mesh net

Dralo®

Dralo® the new wire rope net:

- Discreet design
- Extreme force is required to damage it
- No rattling noise on contact with the ball

Knotless antivandalism net "Mahulan steel" with stainless-steel, wire-strandcore

To the eye, this knotless net scarcely looks any different from our normal textile nets, but it has a stainless-steel, wire-strand core as vandalism protection and at the same time offers a high level of noise absorption. **The soft net with the hard centre.**

Mesh size: approx. 105 mm, square mesh
(in 3 different standard widths)

No. 9830-105 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.
Mesh size approx. 105 mm
Fixed width of nets: 3 m
Colour: ● £ 18.60 / m²

No. 9840-105 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.
Mesh size approx. 105 mm
Fixed width of nets: 4 m
Colour: ● £ 18.60 / m²

No. 9820-105 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.
Mesh size approx. 105 mm
Fixed width of nets: 2 m
Colour: ● £ 20.90 / m²

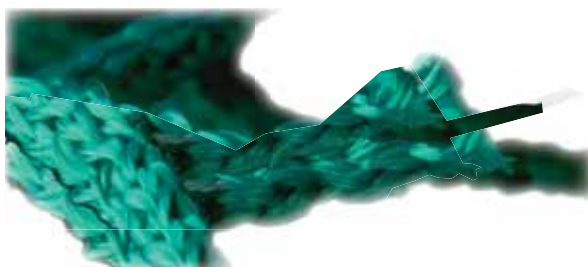

Mesh size: approx. 60 mm, square mesh
(in 2 different standard widths)

No. 9830-060 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.
Mesh size approx. 60 mm
Fixed width of nets: 3 m
Colour: ● £ 31.60 / m²

No. 9840-060 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.
Mesh size approx. 60 mm
Fixed width of nets: 4 m
Colour: ● £ 31.60 / m²

● = 015 = dark green

When ordering, please specify which colour you require!

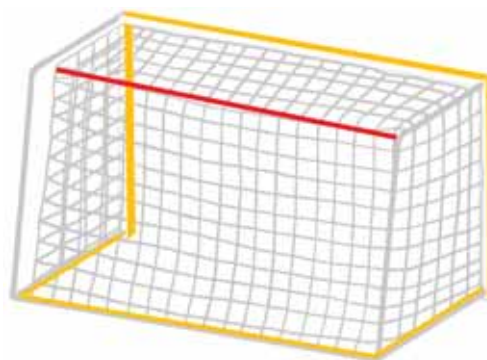

Surcharge for minimum quantities per single net:

nets under 1 m² + 200 %
nets under 5 m² + 100 %
nets under 10 m² + 35 %
nets under 20 m² + 20 %

Mahulan Steel:

- Discreet design
- Extreme force is required to damage it
- No rattling noise on contact with the ball

"Mahulan steel" knotless goal net with stainless-steel, wire-strand core

The net measures 1 m 9.50 m in accordance with international regulations. **For use with standard volleyball posts.** Tape, 160 mm wide, made of coated woven fabric and bearing the Huck logo.

£ 933.10 / each

No. 4074-2 Volleyball net as no. 4074-1, but PA-coated steel rope 1.8/2.5 mm, in green (see small picture).
£ 1,127.50 / each

No. 4074-2

See page 9.3 for boundary marking (item 555-04).

Further information about Dralo® can be found on page 10.7.

Equipment for Neighbourhood Playgrounds as multi-functional games equipment in residential areas

Multifunctional games equipment has an important social function in residential areas. **A place where the young can meet and unwind, on their own, or as a team**, without running the risk of breaking windows or urban property by accident.

Equipping these facilities with anti-vandalism sports nets not only makes them extremely durable but also improves the quality of residential areas.

No. 4305-100 Safety & stop nets in polyester with steel wire (reinforced textile net), approx. 2.5/5 mm dia., with a mesh opening of approx 100 mm.
Devised to partition fields or to stop balls behind goal posts.
Colour: ● £ 98.50 / m²

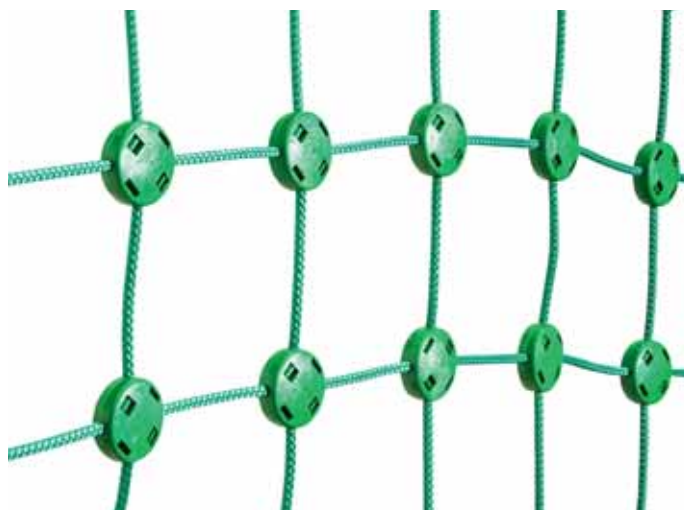

No. 4305-045 Safety & stop nets as article 4305-100, but: with a mesh opening of approx. 45 mm.
Colour: ● £ 152.00 / m²

NEW

When used as a vandal-proof ball stop net, our Hercules net has better sound-absorbing properties than wire mesh netting or a steel-lattice fence.

The emission noise-pressure level was measured according to EN ISO 11202.

Huck-DRALO®-ball stop modular fencing system

The Huck-Dralo® ball stop modular fencing system consists of a basic module that comes in a standard 5 m width and 5 m height. As many 5 m x 5 m module extensions as you wish can be added.

The basic module contains two posts, a net (**approx. 3 mm dia.**), plus a crossbar to finish it at the top, tension cables and assembly accessories. Each expansion module comes with an additional post, the net and all the small parts required.

The anchoring device has been specially developed for the system (above) and ensures a very light section profile with maximum stability. This straight finish is also very important to give the look of a wire rope net.

The net areas (net + crossbeam) can easily be assembled by one person on a mobile elevated platform. The system allows efficient assembly with long-lasting, vandal-proof components.

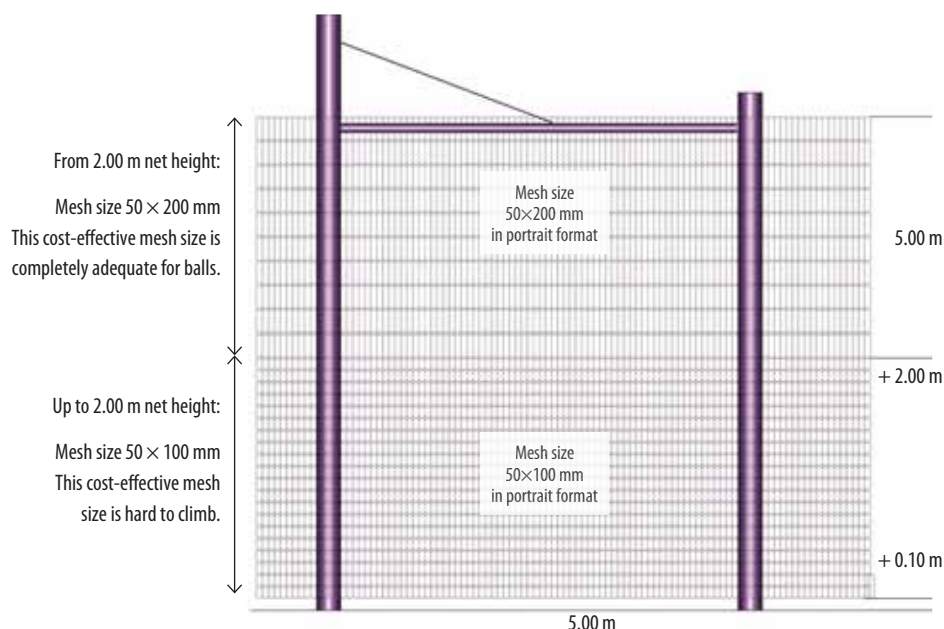

The differing **mesh size design** (50 x 100 mm at the bottom, 50 x 200 mm from 2 m up) prevents people from climbing up the fence and also means it weighs less. Under EN 15312 the horizontal mesh size of ball stop fencing should not exceed 50 mm to make climbing it harder.

For this Huck-Dralo material there is also a general approval by the **building authorities (Z-14.7-765) in the "fall protection" section.**

No. 46500 Huck-Dralo®-ball stop fencing – basic module
Width: 5 m, height: 5 m £ 2,813.90 / each

No. 46500-2 Accessory for 90°-corner module
£ 112.60 / each

No. 46500-1 Huck-Dralo®-ball stop fencing – extension module
Width: 5 m, height: 5 m £ 2,307.40 / each

– **Low-noise ball catching net:** because of the strong connections of the net knots

– **Anti-vandalism:** thanks to a steel cable net

– **Easy assembly:** thanks to handy module size

Dralo® Anti-Vandalism Nets

Dralo anti-vandalism nets have a modern and attractive appearance. These mechanically produced wire rope nets have a square mesh. They are aesthetically pleasing in spite of their strength. These nets are supplied for use as practice pitch goal nets and safety nets (e.g. stop nets for balls).

When ordering safety and stop nets, please specify whether you require the galvanised or stainless steel design.

Nets can be supplied with the following mesh sizes (MS)/rope diameters: Price on application

	MS 25 x 25 mm	MS 50 x 50 mm	MS 75 x 75 mm	MS 100 x 100 mm	MS 125 x 125 mm	MS 150 x 150 mm	MS 200 x 200 mm	MS 50 x 100 mm	MS 50 x 200 mm

All measurements are approximate, allow for small variations.

Terms and conditions of sale

Extract from the Conditions of Sale of the Company – Full Conditions of Sale are available on request

Prices

Every effort will be made to keep prices firm, but we reserve the right to vary with them without notice.

VAT

Extra at rate ruling at time of invoice.

Credit Surcharge

Sums which are overdue and have not been paid by the end of the month of the invoice, will be surcharged at the rate of 1.5 % (compound) per calendar month or part of calendar month thereafter.

Title

Title to the goods does not pass to the purchaser until the account is settled in full. Risk passes to the purchaser on delivery.

Quality

We use the most suitable materials for the intended purpose of the article. It is not our policy to vary quality but we reserve the right to use alternative materials when we consider it suitable or necessary. Weight of goal posts etc. listed are approximate.

Carriage

A standard carriage charge of £12.00 will be added to all orders, except items marked "carriage extra", on these orders carriage will be charged at cost.

Packing

Free, except any wood cases or specially requested materials which are charged at cost.

Non-Delivery or Damage

If goods are not received within 10 days from date of invoice we must be notified immediately in writing, otherwise no responsibility can be accepted. Damage or Part Delivery must be advised within 3 day of receipt.

Returns

No goods can be accepted for credit without written permission from the Company. A 15 % handling and restocking charge will be applied to all credit notes covering returned goods, plus carriage where applicable. Returns will only be accepted on goods received back in saleable condition. This condition does not apply where there is a justifiable complaint relating to the quality of the goods supplied.

Guarantee: legal requirements apply.

Our nets are textile products with features that are damaged by exposure to UV radiation. The netting is therefore UV-stabilised although this only represents additional protection.

The guarantee only applies to the features of the net when new, which of course include the standard addition of UV stabilisers.

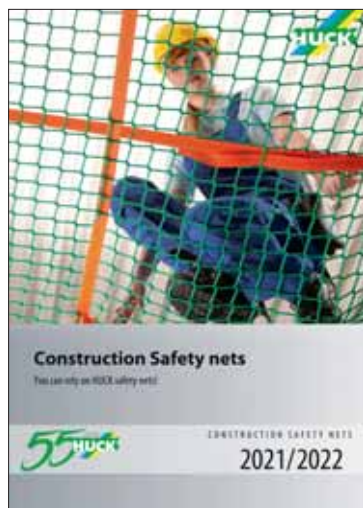

For this reason, the manufacturer's test regulations (test mesh) must be observed for nets that provide personal protection.

Notes:

Here are more top products from HUCK:

Construction sector: Huck construction safety nets

for all needs You can find details of the nets required on building sites in our specialist safety net catalogue for the construction industry. Collection nets, brick guard rail nets and full information about our assembly service and rental of collection nets.

Just ask for a copy of our catalogue.

Industrial sector: Industrial Nets – for all applications

Lifting, tying, loading, covering, protecting, securing – a world of technology needs a world of nets. Few materials meet the diverse requirements of the industrial sector with the same variety or as economically as net.

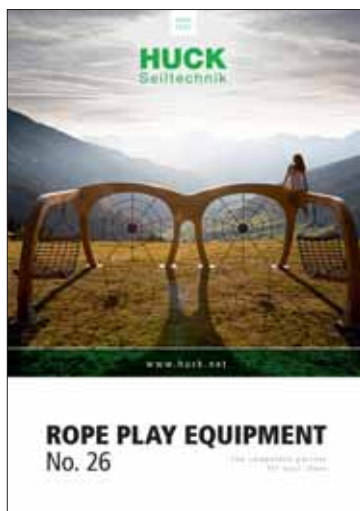

Please order our specialist catalogue!

Leisure sector: Huck rope technology

We have extended our playground range again this year. Products in this range, including climbing nets, swings, net bridges, rope ladders, climbing ropes and net playgrounds, can be found in our catalogue "Huck Rope Technology".

Please order this specialist catalogue.
