

# Only trust the original!

HUCK play equipment has safety as its first priority. The HUCK Bird's Nest® is especially popular and safe for this reason.

In the HUCK Bird's Nest®, children play on a **close-meshed chain-link mat**, through which arms or legs are unable to slip through. The risk of injury is therefore extremely slim.

The "chicks" sit on a smooth and soft curved floor, just like their feathered friends in a bird's nest.

Of course there are clear legal requirements for the upholstery in play equipment, which the HUCK Bird's Nest clearly meets and exceeds.

Another criterion of quality: **extra strong abrasion-protection** for overloaded connecting pieces like the suspension chains of the nest basket. Extremely weatherproof and cold resistant tubular coverings for the HUCK suspension chains provide optimal protection for regular use – which is why our Bird's Nest is so loved!

**Maintenance** is also child's play. The play equipment can easily be repaired once assembled. All built materials come with a **5 year guarantee** and with proper care and maintenance, children will be able to play happily on the play equipment for a long time.

HUCK's Standard Bird's Nest has a blue wrapping rope – alternatively there are other colours such as green, black, red and natural hemp.

Our experience and our standards guarantee quality of the highest level – that's HUCK "Made in Germany"!

Note: Only trust the original! Because only the HUCK Bird's Nest® combines happiness whilst playing, durability and security.
